

Physics: it's so much more than rocket science!

Are your students interested in tinkering with robots, predicting storms, or unravelling the secrets of the cosmos?

We have free physics workshops available for your school!

WORKSHOP 1: INTRODUCTION TO PHYSICS

Delivered by Future First - 3h session for 30 pupils in years 9-11

- Inspire a more diverse range of pupils to study A-level physics
- Connect your students with physics role models
- Explore an exciting array of physics careers
- Meet Gatsby Benchmarks 4 & 5

To book your workshop, go to www.buytickets.at/futurefirst1/1399515

WORKSHOP 2: CAREERS IN PHYSICS

Delivered by Physics Partners - 3h session for 30 pupils in years 9-11

- Give students greater insights into the types of careers available to those who have studied physics
- Interactive workshop - they're not just talking about physics, they're doing it!
- Students receive a certificate upon completion which can be used for apprenticeship/FE applications

To book your workshop, email info@physicspartners.com

**IGNITE THEIR CURIOSITY AND SHOW THEM A
WORLD BEYOND LIMITS**

Funded by the Institute of Physics
